Professional Summary

Motivated and curious developer with a strong passion for solving real-world problems through technology. Proven ability to adapt quickly, learn new skills, and contribute effectively in collaborative environments. Participated in national-level hackathons such as IEEE SSH 2024 and InnovateYou Techathon 2.0, demonstrating creativity, teamwork, and technical proficiency. Actively seeking opportunities to grow as a full-stack or backend developer.

Skills

- Web Development: Flask, Django, ExpressJS, React, Astro, JavaScript
- Programming Languages: Python, C++, Java, SQL
- Databases: MySQL, PostgreSQL, MongoDB, Firebase Firestore
- Tools & Platforms: Git, Linux Commands, Google Cloud, Microsoft Azure (GitHub Student Developer Pack)

Education

B.Tech in Computer Engineering

AISSMS Institute of Information Technology, Pune

Expected Graduation: 2027

CGPA: 9.54 / 10

First Year CGPA: 9.93

Projects

MindfulConnect - Mental Health Support Platform

Flask, React, TailwindCSS, TensorFlow, PyTorch, SQLite ORM

Built a secure and AI-powered web platform that connects individuals struggling with mental health to certified professionals. Implemented robust user verification to prevent fake profiles, ensuring trust and safety for all users.

Distributed File System - Scalable and Fault-Tolerant Storage Solution

Flask, RESTful API, Astro, TailwindCSS, JavaScript, Google OAuth

Engineered a distributed file system for efficient file storage and retrieval with high scalability and fault tolerance. Includes metadata management, file replication, consistency enforcement, concurrency control, and secure file access.

Certifications & Awards

- Completed Google Cloud Study Jams 2023 (Cloud Fundamentals, Networking & Security, ML & AI, Prompt Engineering)
- Achieved a CGPA of 9.93 in First Year at AISSMS IOIT
